

LEADERSHIP EXCELLENCE & EXECUTIVE COACHING

Course

June 12 - 14, 2018 from 8:00am to 4:30pm

36 PDUs

A powerful, game-changing leadership course and coaching program for experienced Managers and Project Managers. Whether you are a senior executive trying to advance your organization in a new world or an experienced project manager, you'll be empowered with new skills and a contemporary perspective on leadership from our [Leadership Excellence & Executive Coaching Course](#). Over 1,000 Corporate managers and project managers from across the globe have graduated from this program more confident, more productive and more effective leaders...driving their organizations forward.

Why Attend?

"The Leadership Excellence & Executive Coaching has been an impacting course for my career and I would highly recommend it to anyone! I had the privilege of working with other professionals in a small classroom setting for growing my skills set as a leader. The interaction that we had in our groups provided real life situations and how to react in acceptable/effective ways as a leader. I truly loved developing my leadership philosophy and sharing it with my team. I look forward to the advanced course, since this course was only the beginning to the next step in my career path!"

Carmen Rodriguez – Project Manager – Cisco

Walk into one of our leadership courses, and you will take an eye-opening journey of self-discovery using our comprehensive leadership style and values assessment methods to uncover what kind of leader you want to be. This is the most critical, profound step towards dramatic improvements in leadership. Self-aware, leaders can now clearly communicate their values and vision to stakeholders, partners, colleagues and

employees. It's the key to creating a motivational climate where everyone is 'onboard' and passionately rowing in the same direction.

Program participants also learn important 'soft' skills like how to leverage conflict and build more effective working relationships – two issues that research has shown are particularly challenging for most managers at this level. You'll be captivated learning these and other highly specific, practical strategies that can be set in motion at your organization immediately.

By the end of Day 3, you're armed with the knowledge and skills to:

- ★ Articulate your personal leadership philosophy
- ★ Build a high-performance team
- ★ Align and accomplish organizational goals
- ★ Strengthen your influence with boards, shareholders, partners, customers, colleagues and critical stakeholders
- ★ Set priorities and develop clear action plans
- ★ Develop committed, energized project team members and employees.

The Leadership Excellence course delivers all the tools you need to become a dynamic and influential Leader.
